It was my intention to use the balance of the money, with contributions from lot owners, for the purpose of reinforcing and extending the fence around the "Free Baptist Cemetery" at North Woodstock, with steel posts and iron pipe; but owing to the increase in cost it was thought advisable to postpone the work. Any contributions for this purpose, or for the Permanent Fund, will be very acceptable.

## REPORT OF SCHOOL BOARD.

---

It becomes the duty of your servants to make their annual statement with reference to the schools.

On the whole the work in the schools has been good.

In the High School we were fortunate in being able to retain the services of the teachers under whose leading the school was put upon the list of Approved High Schools by the State.

Largely through the initiative of Mr. Moore, a weekly meeting is held for the teachers, to study principles and methods of education; a Parent-Teacher Association has been formed; and, through the generosity of the pupils who gave the school play last year, and the co-operation of the teachers, a lunch room has been fitted up in the basement to serve a hot dish to the pupils who have to bring their dinners.

In the grades, Misses Thompson and Gillies returned and Miss Junkins took the intermediate.

At the Center, Miss Gilman returned. Miss Laffie taught the Primary one term, when she resigned to be followed by Miss Boothe.

Miss Corey taught at the Tannery until recently, when she resigned, as she was needed at home. At present no permanent teacher has been found for the school, but Mrs. Conroy is teaching until someone else is found.

We put in our annual plea for the parents to visit the schools, get acquainted with the teachers, so as to be able to co-operate sympathetically with them in the interest of the best possible, for the pupils.

On the whole the attendance of pupils has been

excellent, but there are some cases that indicate a great lack of interest on the part of parents.

The school officers have tried to treat all cases with patience and due consideration of the circumstances without recourse to the law that is very strict, but this law is framed to protect the pupil in his right to about the only thing that most of us can give our children, viz. a good education.

An education is also the best thing that you can give to your children. Is it wise to hinder them in the securing of this for the sake of immediate gain or unwillingness to put yourself to some inconvenience?

The School Board would like the suggestions or the just criticism of those who support the schools. We thank you for your help in the past.
